

Valuex Gloserv LLP is a specialized advisory firm focused on cross-border fund flow, corporate governance, and capital structuring for growth-oriented Indian businesses and cross-border investors.

What we do & its Results:

- Capital structuring is not raising money — it is designing the DNA of the company's ownership, risk, and future.
- Foreign Exchange Laws (FEMA) decides whether cross-border money becomes an asset or a liability.
- Corporate Structuring is not legal rearrangement — it is redesigning how a business operates, scales, and survives change
- Governance is the culture and mindset behind decisions — and their consequences.

Valuex Gloserv LLP aspires to be the go-to firm for ambitious ₹20–250 Cr enterprises seeking world-class expertise in FEMA, corporate law and capital structuring — helping promoters unlock opportunities, execute deals intelligently, and preserve long-term value and control.

We understand that for promoters, regulatory decisions directly impact valuation, control, and future fund-raising ability. Therefore, our advisory is designed not only to meet the law, but to strengthen the business.

We envision a practice where every advisory is not limited to be compliant, but commercially smart, future-ready, and aligned with promoter wealth creation.

Vision:

To be the first call for ambitious promoters and deal-makers when growth, capital, and cross-border structuring decisions matter.

Mission:

Our mission is to act as a strategic partner to growth-driven promoters and deal-makers, delivering high-impact advisory in FEMA, corporate law, and capital structuring that protects value, enables scale, and strengthens promoter control.

We combine deep regulatory expertise with commercial thinking so that every structure, transaction, and compliance decision contribute to long-term wealth creation—not just short-term legality.

At Valuex Gloserv LLP, we not only ensure compliance, we enable confident growth.
